THE GENIUS OF ENTERPRISE. After Rome was subjugated by the hoards of northern barbatlans in the fifth century, the luminaries of science that had shone with such effinigence upon the Greeks and Romans, were almost extinguished, and for ages the world lay in an interminable night of mental and moral gloom. The human intellect seems to have laid dormant during the long and tedious Winter, with no enlivening spring to awaken and revivity its inactive powers. But at length the dawn of a brigater day began to appear, and slowly and majestically arose from that murky chaos, the sum of enlightenment, ordered by Providence, to gladden and illuminate the world with his beams. FOR THE COMPLETE CURE OF Coughs, Colds, Influence, Asthma, Bronchitie, spitting of Blood, and all other Lung Complaints tending to CONSUMPTION. THE GREAT COUGH REMEDY!

THE GREAT COUGH REMEDY!

READER! have you a Cough, which you are neglecting, under the idea that it is only a counton cold, that it will soon "wear tizelf out?" Let a friend tell you, in all kindness, what will soon be the probable result.

In a short time, if you continue to neglect yourself, you will begin to feel a sense of tightness and oppression across the chest, accompanied with frequent sharp darting pains. Then a dry, hacking Cough will set in, and when you ruise anything it will be a thick and vellowish, or white frothy matter, streaked, perhaps, with blood. If you still take no medicine, these unpleasant symptoms will increase, and you will soon have Hecke Fever, Cold Chills, Night Swests, Copious Expectoration, and then Great Prostration. If you still neglect yourself, a new weeks or months will see you consigned to the grave, leaving your friends to mourn how rapidly CONSUMPTION did its work, and hurried you away.—Friend! have you no cause to be alarmed? In the above sketch you may see as in a glass, how every case of Constant. termination. Of all the Thousands and Millious whem this great Destroyer has gathered to the tomb, every single case began with a Cold! If this had been attended to, all might have been well but, using neglected, under the fatal delusion that it would "wear itself," it transferred its deadly action to the substance of the Langs, exciting there the formation of tubercles. Another, and another cold added fuel to the flame, until these tubercles began to soften and suppurate, leaving, by their ulceration, great cavities in the Langs. At this crisis, the disease is very difficult of cure, and oftentimes sets at deliance all human means.

In the latter or worst stage, this medicine will oftentimes

In the latter or worst stage, this medicine will oftentimes arrest the disease, or check its progress, and will always make the patient more comfortable, and prolong his life, and is therefore worthy of a trial;—but in its incipient or forming periods, Consumption is as curable as any other disease, and "Dr. Rogers" Syrup of Liverworth, Ta., and Canchalagua," if taken at this time, will cure it [37] AS SURELY AS IT IS TAKEN! [32] This is strong language, but we can refer you to numberless living witnesses to prove that it is TRUE And therefore, we carnestly exhort every man, woman and child, who has a Cough, or is subject to Colds, to keep raedicine by you in the house; and whenever you take Cold, do not "let it alone" to work mischief in your system, but evadicate it thoroughly, at once, by this power, fully healing comcate it thoroughly, at once, by this power, fully healing com-pound and leave your langs uninjured, to carry you in full

pound and leave your langs uninjured, to earry you in full vigor to a good old age!

MOTHERS!

Have you delicata, weakly children, who are always taking cold, and subject to Croup? Remember! There never was case of Croup, which did not originate in a Cold! And when your child goes to bed wheering and coughing, you know not that, before morning. Croup may not set in, and ere you can get a Physician, your dear child may be beyond the reach of help. We beseech you therefore, as you value the lives of your children, keep this medicine by you in the house, and when your little ones take cold and commence coughing, give it to them is once, and rest not until the cough is entirely subdued. We conscientiously aver, after the most extended experience, that if this advice were followed, mest extended experience, that if this advice were followed,

DIE OF CROUP,
for the cold would be cured, before it could arrive at this aggravated and fatal stage. Let every Mother, especially, beed well these remarks, that she may not hereafter, when mourning over the early blight of some cherished blessom, have occasion bitterly in reproach berself for her criminal neglect. It is an old adage, that "to be forwarned, is to be forearmed." Parents, so let it be in your case.

Be sure to ask for Dr. A. Rogers' Syrup of LIVER WORT, TAR and CANCHALAGUA, and let no other be pained on you.

Since he has been practicing medicine, his success in such cases has been unrivalled. He has been sware of the incredulity of the public, and consequently said nothing through the press of his corn case, until the character of the medicine was fully established by its success, as shown by the certificates which have been advertised.

I subjoin the certificates of Prof. M. Garagers of Memories. I subjoin the certificate of Prof. M. Gasseur, of Memphis, Tenn., with whom Luften advised during the time of my

Memours, Tenn., April 17, 1852.

I hereby certify that I have been acquainfed with Dr. J.

N. Bledsse and some years ago he was reduced I oct ave lower than I have ever seen any one that afterwards recovered, with what I supposed to be flyespersianand Liver affection, and after trying the prescriptions of many Physicians in this as well as other countries, without relief, he finally succeeded with a preparation of his own in heing restored to good health.

M. GABBERT, M. D.

Physicians are requested to try this preparation. We feel satisfied it will sustain the character we give to it in this publication.

Hostivitae, January 12, 1852.

De. Braison:—I take the liberty and fell it to be my duty to recommend to all persons suffering from disease of the stomach and bowels, your Alterative Compound, as a very separior medicine. My son, aged 15 years, had been under medical freatment about five years for dyspepsia and discribed—when having almost despaired of his recovery, I concluded to try your Alterative, two bottles of which, I believe, entirely curred him.

MICAJAH CAYCE.

* Henryman, Oct. 17, 1852. Dr. Berreor.—Some time has claused since I gave a centificate that my wife had been greatly benefited by your Alterative Compound. I now take pleasure in saying to the public, that my wife had for three or four years been the public, that my wife had for three or four years been subject to the worst kind of spells of eramp in the stomach from dyspepsia. I had tried of several whem I thought to be the best physicians in the place and a great many differen medicines, with momentary relief. Being persuaded to try your alterative compound, I did so—and I am happy to say that it has entirely cured her; and I would conscientiously recommend it to all persons suffering from diseases of the liver and dyspepsia.

N. B. ROBERTSON.

Dr. Bledson-Having seen the publication of your Alterative Compound, I think it my duty te say to the public, that I had been for years subject to spells of Cramp Colic, in its worst form; that I had tried almost every thing that is given by physicians, and never found any thing that would certainly relieve me, until I tried the above medicine, which has relieved me in every attack in less than an hour.

WM. B. LLOYD.

On Burrson: —I feel that I should full short of my duty to you and to those who are afficied, were I not to forther to you and to those who are afficied, were I not to further recommend your Alterative Compound. It has entirely relieved ma, so that I have not had cause to take anything in two months. I can eat anything I want with impunity, and believe my health is as good as it ever is at my advanced age. Should I ever suffer from dyspepsia again I shall be sure to call on you. I am very respectfully your friend.

ELIZABETH J. HARWOOD.

HUNSVILLE, Ala., August 24, 1851.

This is to certify, that I had suffered for many years with Dyspepsia and Diseases of the Liver. Physician after Physician had prescribed for me without my receiving any benefit, when I commenced the use of Dr. Biedsoc's Alterative Compound, which cured me soundly, and I recommend it because of the same happy effect upon others of my acquaint sace.

JOSEPH CAROTHERS.

Hunrsville, Ala., March 3, 1852.

Da. Burrson:—Sin: Judging from the certificates you have already advertised, it will be almost unnecessary for me to add further evidence in regard to the healing virtues of your Compound; but I must say, that for years I suffered a great deal from Dyspepsia and enlargement of the spleen, and thought that I never would recover. I commenced taking your compound about nine weeks since, and have gained 25 or 30 pounds, and feel about as well as I ever did.

DR. WM. McLANE,

INDIAN AND GERMAN BOOT DOCTOR.

ESPECTFULLY announces to the citizens of Nashvilla and vicinity, that he has returned again after a residence of fourteen years in the South, and permanently lecated himself in South Nashvilla, at the corner of Waskington and Pearl streets, where he may at all times be found by those who may wish to consult him.

He has in his possession many certificates from men feminent standing certifying to the permanent cure of the most distressing cases of the following diseases, viz.—Nervous Affections, Liver Complaints, Dyspepsias, Chills and Fevers, Pleurisies, Asthmas, Colds, Congbs, Incipient Consumptions, Rheumatisms, Weak Lungs, Fits, Dropsies, Cancers, Ulcers, Scroffulous, Hemoptasis of the Lungs, and other Hemorages, Diarrhora, Diseases of the Kidneys, Mercurial and Venereal Taints of the Blood; Diseases of Children, Worms and various other Diseases incident to the hudren, Worms and various other Diseases incident to the hu-

man system.

During his residence in the South, he attended to over ten thousand different cases, all of which he treated with more than ordinary success.

Dr. McLane hopes from his much experience in the Medical Profession and the degree of success that has attended his efforts heretofore, to obtain the confidence and patronage of the sick and afflicted.

All Letters addressed, post-paid, to South Nashville.

A MR. WINTERS had lost nearly all of his hair and had been hald for many years; by the use of three better of the Magnetic Cintument, had his hair entirely restored, and now has as beautiful a head of hair as any man could wish. His age is shout 50 years.

A son of Mr. Warren, of this town, 14 years of age, had been afflicted with the Asthma from his cratle: He had the benefit of the best medical advice that a loving and wealthy father could procure, without avail. It was one of the most aggravated cases I over saw, he was emiciated almost to a skeleton. By the use of a few bottles of the Ointment he was thoroughty overed, and for seven months past has enjoyed robust health.

This was an extreme case of inflammation of the spleen, of long standing; has a variety of treatment from no less than eight different physicians, without receiving benefit was cured by the use of only four bottles of the Magnetic Ointment. This was four months ago and the lady (a Mrs. Dunham,) is still in good health, and able to attend to her usual household duties. Thave treated two cases of Chronic Sore Eyes with the Ointment, both of the patients so nearly

es with the Omimont, both of the patients so nearly aid, as to need an attendant to lead them from place to place. One of them had been afflicted 18 years, the other about 9 years. They had tried the best physicians in the State, without benefit; and one of them had been under the State, without benefit; and one of them had been under the treatment of the celebrated Dr. Muzzy, of Cincinnati, for eighteen mouths, and had expended hundreds of dollars in vain efforts to effect a cure. They are now by usent the Magnetic Ontment, nearly or quite cured, and are able to read and attend to any ordinary business. I have used the Ontment in a number of cases of Piles, and in no case has it failed of viving immediate relief and ownerally a permonent cure. I have also used it beneficially in severe cases of Erysinelas. And last but not best I have within the last way.

cure. I have also used it beneficially in severe cases of Erysipelas. And last but not least, I have within the last year cared four cases of CANCER by the use of the Mognetic Ointment along!

From a thorough trial of the Ointment in nearly every disease for which it is recommended, I can confidently recommend it to be one of the most useful remedies ever offered to the public.

Respectfully Fours.

BURTON HURBELL, M. D.

Dated Jan 27, 1856, Amedia, Ohio.

The character of this Ointment, as an efficient remedy, is established in this city. There are quite a number of individuals who ascribe their restoration to health to the use of this extraordinary Gintment.

J. H. Burrow's Patent Plantation CORN MILL.

This Mildiffers from all others in the construction of the upper or Running Stone, which is composed of French Eurr Blocks, enclosed in a cast from Case, which forms the back and hoop of the Stone with a Cast from Eye, or Bush, than is of greater external diameter at the bottom that at the top, which is secured to the back by four bolts, so that every block is in the form of a dove tail, which gives greater strength to a Stone than any other method which is required in small mills, where the stone is run with great speed, and becomes dangerous if not strongly made. It also gives any weight to a stone of small diameter that is required without having it thick or high, that makes it top heavy.

This mill is a square frame made of wood or cast from, in the form of a busk, with Bridge-tree, Spindle Balance, Ring Driver, and Regulating Scrow, and grinds upon the same principle as a large mill, differing only in the Hunner Stone; this being of great weight enables it to grind nearer the center a greater quantity of grain with less power than any other mill now in use. This mill is postable, and may be stached to steam, water, horse or hand power.

ALSO, all sizes of Erench Burr Mill Stones, manufactured on the same principle.

Joseph H. Burrows, of Cincinnati, is the inventor, for which he obtained Letters Patent in 1842. For all infringements the purchaser will be held responsible for the right of using.

These Mills do not require a Millright to set them up; and all that is necessary to put them in operation, is to attach a hand to the pulley on the spindle, with a dram sufficiently large to run a twenty-four inch Mill 460 revolutions per minute, attached to Gin, Steam, or Water Power. By the steady application of two horse power the Mill will grind ax to 8 bushels per hour of good ment and will grind wheat as well as corn. The thirty inch mills, if put to its foliest speed, will grind from ten to fifteen bushels per hour. These mills are warranted to be in every respect as recommended.

mended.

Directions for Using.—Place your mill about 20 feet from the Driving Pulley in a terel position; make the belt of leather six or eight inches wide. Give the Stone240 revolutions a minute with the ann. Keep the neck and step of the spindle well olited. Place the star on the back of the Running Stone, in the same way as the Cross on the Driver, that is, the way they are trimmed to run.

IMPORTANT TO IRON MANUFACTUREMS. JAMES RENTON, of Newark, New Jersey, has discovered a process for manufacturing wrought iron directly from the ore, with wood or mineral coal, styled by him an are-welding furnace; (an improvement in the manufacture of iron long sought after, but never successfully attained until Mr. Reuton's discovery, and which produces at a single heat the best quantity of blooms, at a less cost than pig iron is now usually made. Letters Patent have been granted him for his discovery, and wears the appointed agents for the sale of rights, and its introduction throughout the West; and as the present high price of iron is inducing many capitalists to invest in its manufacture, without heing aware of the great advantages this new and valuable invention has over any other known mode, we think it betsubserving their interest to thus saviy impress upon them the importance of an examination of the merit of this late invention before embarking in any other made for making iron, assuring them of its entire success and practicability, as demonstrated by the furnaces now in successful operation after this plan.

It is not our purpose in this advertisement to speeck par-

monstrated by the furnaces now in successful operation after this plan.

It is not our purpose in this advertisement to speak particularly of the almost incelephable advantages this process possesses over all aster modes for making Iron; (as this is contained in our circular, which we will be pleased to mail to the address of any one interested in the matter,) but to call the attention of those about investing in the manufacture of Iron, and respectfully invite an examination of the furnace we are erecting in this city, and which will be in operation by the 5th June next, or to the furnaces of the American Iron Company in Newark, New Jersey, now operating with complete success.

THE GREFENBERG DISENTERY SYRUP--Is a speedy and infallible remedy for DIABRHEA,
DYSENTERY, BLOODY FLUX, CHOLERA MORBUS,
CHOLERA INFANTUM, and the Asiatic Cholers.
It never fails to cure the worst possible cases of bowel complaints in a few hours. It is purely vegetable, and taken in almost any quantity is perfectly harmless.

Most remedies in use for Diarrhes, look up the pores of the intestinal canal and only for a time alleviate the disease by preventing the expulsion of the acrid fluid, which will ulmost invariably poor forth again, with increased violence, though nature sometimes overcomes the evil, while the remdy alone bears off the praire. Not so with the Dysentery.
Syrup, Its ingredientare the natural antidotes to these complaints. It changes the nature of the fluids, and causes their explusion in a natural manner. It does not leave them to infame the surface of the stomach and howels, but attacking the cause, it neutralizes them, and the disease immediately subsides. The operation of the Syrup is threefold. It imsubsides. The operation of the Syrup is threefold. It im-mediately reaches the seat of the disease and arrests its course; if instantly socibles pain and resignes the system to perfect quiet. The inflamed surfaces of the storageh and intestines are guarded against further violence by the neu-tralization of their serid contents, and thus the hody re-sumes it natural healthy functions.

BUENA VISTA WATER CURE.—1853.

A. WEBBER & EDMONDS,

TAKE pleasure in announcing that they are now ready
for the reception of patients at their establishment at
Buena Vista Springs. The romantic, healthful and
picturesque character of the locality at Buena Vista Springs
is so widely and generally known through the numerous
visitors who annually resort to the place for its modicinal
waters, that the proprietors deem it necessary to say but
little on the subject. The country is wild and broken,
abounds in game, is exempt from epidemic invasion, has an
unconfined and salubrious atmosphere, and the establishment is suppired with an abundance of pure running freestone water, equal to any in the State.

Dr. Wansen is a physician of forty years' experience in
the active practice of his profession, and has just returned
from a tour through the Northern and Eastern States, during which he visited the best water-cure establishments in
the country and enjoyed ample access to all the best sources of information on the subject.

Dr. Enzones, though a younger practitioner, has several
years' experience, and brings with him into the establishment the professional devotion and energy incident to the
earlier periods of life. The means for amusement and recreation are ample and free of charge.

Transs.—For Board and treatment from 8 to \$10 per week.
Patients are expected to bring with them two blankets, two
comforts or a feather bed, six large crash towels, two sheets,
and some old linen for bandages, or they will be charged
extra for such in the establishment. Very sick and feeble
persons will furnish an attendant who will pay board, or be
charged for such extra.

This delightful Summer Retreat is now open for the recection of Visitora. It is situated on the Nashville and Louisville (via Mammoth Cave) Turnpike Road, twenty one miles from Nashville, It is accessible to Nashville by a fine of daily stages, and by numerous other modes of conveyance. The great notoriety of its various mineral Springs, tenders it entirely unnecessary to speak of their invaluable properties. The Hotel is neatly littled up; and, for the exteut of its scale, and its adminable adaption, it is not equaled by any fashionable resort in the State. The proprietor most respectfully solicits the patronage of the public generally, and confidently hopes, by care and attention, to satify his visitors.

By the President:

JOHN WILSON

Commissioner of the General Land Office. Notice to actual actilers on lands of the United States original ly withdrawn from market on account of the railroad

Under act of Congress, approved 5d March, 1953, entitled "An act to extend pre-emption rights to certain lands there in mentioned," the Pre-emption laws of the United States as they now exist are extended over the alternate reserved seek tions of public lands along the line of the railward herelobefore mentioned, where the settlement and improvement were made prior to the final allotment of the alternate sections to the said railroad. Therefore, all claims by pre-emtion to any of the alternate sections of public lands within the limits originally reserved will attach, if predicated upon settlements made prior to the 4th February, 1855, the date of the final allotment.

Claims within the six miles limits must be proven up at any time before the day herein fixed for the commencement of the public sales, and are to be paid for at the rate of two dollars and fifty ceuts per acre. Claims outside of the six niles, and within the limits of the original reservation, must be proven up prior to the restoration of said lands to private

cents per acre, may be received in payment for either class of lands; one warrant only, however, can be located by our

of lands, one warrant only, however, can be located by each pre-emptor.

Immediately after the close of the public sale directed by the foregoing proclamation of the President, applications will be received for the purchase at private entry, or location by warrants, of the lands reserved to satisfy this grant, outside of the six miles limits, in such order as to prevent confusion and insure accuracy, in accordance with instructions to be issued to the registers and receivers.
